Executive summary

I'm a Full stack developer and Java enthusiast. Dedicated to bringing ideas to life through efficient, full-stack projects with a passion for innovation.

Projects

Blog Website

Created a website to allow users to write and post their thoughts and edit it whenever necessary.

Personal Portfolio Website

I've created and launched roshishdahal.com.np, a personal website that serves as my online portfolio. The site showcases my skills, projects, and professional experience, acting as a platform to connect with potential employers and collaborators.

Education
